 Scale: 1" = 1/4 mile

Harvest Regulations:

1. **Red Pine Thinning:** Harvest all trees marked with orange paint. Do Not Cut any unmarked trees. Leave all dead trees standing unless they create a hazard during forest operations. The harvest area is surrounded by young plantation. No entrance into these bordering plantations is permitted.
2. Harvesting is restricted to the period from August 1 to February 29. Additionally, to reduce bark beetle infestations, all cut pine products are required to be removed from the sale area within fifteen days between May 15th and August 15th.
3. Avoid damage to residual trees including advanced regeneration. This reduces the risk of spreading disease and degrading future crop trees. Excessive rutting and/or excessive damage to residual trees will cause temporary closure of harvesting operations.
4. Tree and pole length skidding will be allowed if the contractor demonstrates the ability to skid without damaging residual trees. If excessive damages occurs penalties will apply and skidding will be limited to shortwood skidding.
5. Existing trails serve this area sufficiently therefore, Vilas County prohibits the construction of new roads. All roads and landings must be cleared and leveled upon sale completion.
6. All trees felled across the Blue Paint Lines must be pulled back into the sale area before being limbed and topped.
7. Refer to the Timber Sale Contract for all harvest regulations.
