

Could you provide us with a list of contractors for our shoreline project?

Yes we do have a listing of contractors in the area who we know are available or who have worked with us in the county cost-share program. However, we cannot recommend contractors to landowners. It is ultimately up to the individual landowner which contractor is hired to complete a cost-share project. The contractor must install a practice via an approved plan completed or approved by the Land and Water Conservation Department.

Refer to the [Cost Share Program Forms, Contractor List](#) on the Programs & Services page of the Vilas County Land & Water Conservation Department website.
